GOALS

My professional goal is to become a full-stack web developer with a strong focus on front-end. I aim to combine my creativity and ingenuity with my passion for coding. I aspire to join a team where I can give my full commitment and contribute to achieving shared goals using my skills and continuously improving them. Accomplishing a mission, project, or objective is essential to me; that's why I consider myself highly motivated and able to give my best in any situation. Whether it's designing eye-catching projects or building solid server architectures, my top priority is contributing to the success of a dynamic and innovative team.

SKILLS

Full-stack web development, with strong emphasis on front-end: HTML, CSS, JavaScript, PHP, Laravel, Bootstrap, Tailwind, ReactJS.

Able to create projects that encompass both design and functionality.

Highly energetic, precise, and detail-oriented.

Creativity and problem-solving are my strengths—I love finding innovative solutions and facing new challenges, both in web development and creative fields.

EDUCATION

05/2025 - 07/2025 Aulab

ReactJS Specialization

ReactJS Specialization Course — also acquired complementary skills in Tailwind CSS

12/2024 - 04/2025 Aulab
